---

Can you please let me know if/when they do follow up?  
Thanks,  
Brooke

Brooke – I spoke with Ericka and she did receive an email from Brent Fairchild about obtaining an EPA ID Number (see below). She sent him the 8700-12 but she has not heard back from him. Nothing has been done on our end regarding a Temporary ID.

## **DIRECTION OF HOW TO OBTAIN EPA REGISTRATION ID #**

Good morning Mr. Fairchild,

The six-page form you use to obtain an EPA ID Number is attached. This is a fillable pdf, but you can't save it. You can fill it out, print, sign, scan, and email to [Ericka.Lawson@dnr.ga.gov](mailto:Ericka.Lawson@dnr.ga.gov). If there are any issues, you will be contacted. Once entered, you will receive a confirmation email.

**You need to determine the answers to these questions:**

- What types of wastes will I be generating and what are the waste codes?
- How much will I be generating monthly?
- Will I be generating P-Listed wastes (acutely hazardous)?

**SOME TIPS FOR INSTRUCTIONS:**

- **Place an "X"** in the appropriate box in Reason for Submittal
- If you have an EPA ID Number, enter it in the box. If not, leave it blank.
- Fill out all the information for site name, location, mailing address, site contact, and please include email addresses.
- Don't worry about the GIS coordinates; EPA will determine those.
- Section 7, enter NAICS code. Go to this website if you need help:  
[Six Digit NAICS Codes & Titles | NAICS Association](#)
- Section 10.A, Check the appropriate generator box.
- Section 10.B, enter Waste Codes.
- Check "yes" box for any other regulated hazardous waste activity.
- Section 19. Certification, have a manager or authorized employee complete and sign section 19.

If you need assistance completing this form, please feel free to contact me via email or phone.

**Subject:** Generator ID

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon, Ericka, Thank you for speaking to me on the phone. As mentioned, I am requesting help into obtaining the Hazardous Waste Generator ID. We have hired a company to remove the products from our site and need a generator id to complete that task. I have added below the items we have packaged to remove. This is a one-time event and as during normal

operating conditions these items were removed below the weight requirements.

**Liquid:**

200 liters of acid waste (30% HCL)

4 Liters of Formic Acid (flammable)

**Solid:**

5 Buckets of slag Approx: 855 Pounds.

35 Buckets of crucibles approx. 2700 Pounds.
